

Cisco Recertification Requirements

All requirements for recertification must be met by the certification expiration date. Individuals with expired certification(s) must complete the full examination process again to earn active status.

Recertification can occur at any time during the active period by advancing to the next level of certifications, earning continuing education credits, or a combination of both.

Certification Level & Duration	Exam only	Combine Exam & Continuing Education
Entry-level Cisco Certified Support Technician (CCST) certifications are valid for lifetime and will not have an expiration date. Therefore these certifications will not require recertification.		
Associate - 3 years	<ul style="list-style-type: none"> ● Pass any one associate exam ● Pass any one professional concentration exam ● Pass one technology core exam ● Pass any one expert-level written exam ● Pass any one expert-level Lab/Practical exam 	<ul style="list-style-type: none"> ● Earn 30 credits
Specialist - 3 years	<ul style="list-style-type: none"> ● Pass any one professional concentration exam ● Pass one technology core exam ● Pass any one expert-level written exam ● Pass any one expert-level Lab/Practical exam 	<ul style="list-style-type: none"> ● Earn 40 credits
Professional - 3 years	<ul style="list-style-type: none"> ● Pass one technology core exam ● Pass any two separate professional concentration exams ● Pass any one expert-level written exam ● Pass any one expert-level Lab/Practical exam 	<ul style="list-style-type: none"> ● Earn 80 credits <p>Or</p> <ul style="list-style-type: none"> ● Earn 40 credits AND pass any one professional concentration exam
CCIE - 3 years	<ul style="list-style-type: none"> ● Pass the CCDE written exam ● Pass any one expert-level Lab/Practical exam 	<ul style="list-style-type: none"> ● Earn 120 credits <p>Or</p>

	<ul style="list-style-type: none"> ● Pass any three separate professional concentration exams ● Pass one technology core exam and pass any one professional concentration exam (This is also a CCNP certification if done in the same track) ● Pass any two technology core exams 	<ul style="list-style-type: none"> ● Earn 40 credits AND pass one technology core exam ● Earn 40 credits AND pass any two separate professional concentration exams ● Earn 80 credits AND pass any one professional concentration exam
<p>CCDE - 3 years</p>	<ul style="list-style-type: none"> ● Pass the CCDE written exam ● Pass any one expert-level Lab/Practical exam ● Pass any three separate professional concentration exams ● Pass one technology core exam and pass any one professional concentration exam ● Pass any two technology core exams 	<ul style="list-style-type: none"> ● Earn 120 credits <p>Or</p> <ul style="list-style-type: none"> ● Earn 40 credits AND pass one technology core exam ● Earn 40 credits AND pass any two separate professional concentration exams ● Earn 80 credits AND pass any one professional concentration exam
<p>Architect - 5 years</p>	<p>Cisco Certified Architect (CCAr) certifications are valid for five years. CCAr will remain certified as long as they continue to contribute to maintaining the Cisco Certified Architect Certification program. Current recertification policies require Cisco Certified Architects to complete qualifying events within the 24 months preceding the expiration deadline. Qualifying events include:</p> <ul style="list-style-type: none"> ● Contribution to the development lifecycle ● Significant participation in the creation of new exam content or ● Significant review/refinement of existing content or ● Involvement in future direction of the program ● Participation as a judge in a candidate evaluation ● Application review/interview for TWO (2) candidates (in the case where the candidate's application IS NOT approved to progress to the board review) or ● Application review/interview and in-person board review for ONE (1) candidate (in the case where the candidate's application IS approved to progress to the board review) 	<ul style="list-style-type: none"> ● N/A
